Subject: Microsoft Settlement

I found the untitrust agreement settlement as by far in the interest of all of us Consumers. We should indeed settle this case entirely as soon as possible in order to allow the Nation to focus on much higher priorities: Domestic Security, War and Economic Growth .

The greatest strength of America has always been Innovation and Innovation, not Investigation.

At a time like this, with the Nation involved in a protracted grinding war and furthermore in a near collapsing economy, a unanimous settlement agreement will be definitely in the interest of Consumers and Entire Economy

Respectfully

Anthony Testa
